SUMMARY

As a recent graduate with a BCA degree and certification as a Full Stack Developer from Apna College, I bring a dynamic skill set that seamlessly integrates frontend proficiency with robust backend expertise. Proficient in Java, I offer a versatile approach to development, ensuring adaptability across diverse projects. With a quick learning curve and a collaborative spirit, I am poised to contribute effectively to your team's success.

STRENGTHS

Team Spirit

Working as a team member or leading a team in vastly multicultural environments, I have always applied these 3 concepts: lead by example, adapt my style to the team members, and share the merit for success.

Innovation

Sometimes I have been faced with problems that were, at first sight, unsolvable. The only way to tackle them was thinking out of the box and learning to ask myself the "right question"

Creativity and Innovation

Known for thinking outside the box and introducing novel ideas to enhance processes and outcomes.
